

- IC lead liner to correct variable lead pitches
- Simple mechanism allows the adjustment just with one screw

## Specifications

Model No.	FT100	FT150	FT200	FT300
Width of IC	7.5mm	10mm	15mm	19mm
Number of IC leads	8,14,16,18,20	22	24,28,40,42	64

## Features

Low-cost, high-performance tool for reforming IC and LSI leads.

- ▣ Speed IC and LSI insertion.
- ▣ No more broken leads during IC and LSI insertion or transportation.
- ▣ Simply insert the IC case into the Dipliner chute, and the leads are protected right through circuit board insertion.
- ▣ Adjustable leads former fits all types, sizes and marks of ICs and LSIs.
- ▣ Simple mechanism for maintenance-free operation.

## Usage / Applications

### Application
